INTERVIEW

### The taste of excellence.

In Sicily, a generous land bathed in sunshine, authentic and high-quality products are born. Here, the intensely red and delightfully sweet cherry tomato thrives, and in the heart of the island, Gustibus expertly transforms it into products of excellence.

**Gustibus Alimentari** builds its philosophy on enhancing the finest raw materials from Mediterranean crops, bringing the highest standards of Made in Italy quality to a variety of premium ready-made sauces and vegetable preserves

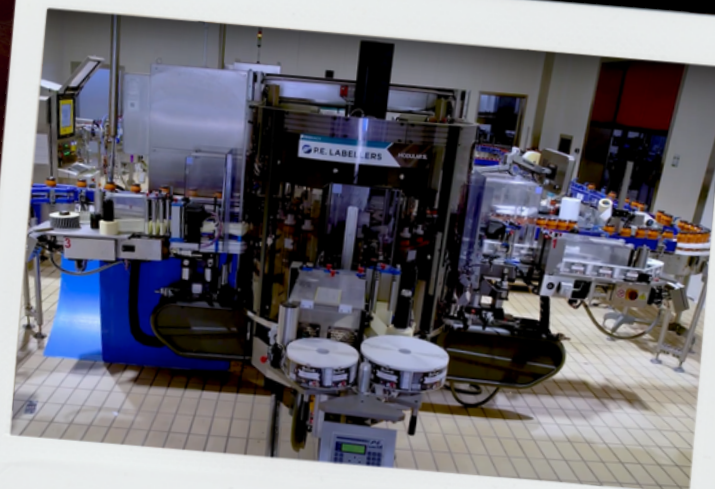

Every day, it passionately cultivates over 100 hectares of farmland to create masterpieces of flavor, capturing the authentic taste of artisanal goodness.

Production takes place in a state-of-the-art facility of over 35,000 square meters in the province of Enna, equipped with cutting-edge machinery that ensures consistently high quality standards.

A passion for quality and a drive for innovation brought **Gustibus** and **P.E. Labellers** together, **creating a success story** that continues to evolve every day.

The four modular machines from **P.E. Labellers** meticulously label half a million packages per day, applying labels and seals to over 20 different formats, including glass jars and cans.

Today, Gustibus serves over 60 international markets with its own brand and private label excellence. P.E. Labellers brings cutting-edge technology to support the company and its millions of consumers worldwide.
