Schenk Italia

Italy in a glass.

Since 1952, Schenk Italia has been telling a story of tradition, culture, and passion for Italian wine excellence through unique wines-true, inimitable ambassadors of Made in Italy.

At the origin of everything lies a love for wine. For five generations, Schenk Italia has pursued a single objective: to express the richness of each territory through wines of character, produced with particular attention to the environment, local traditions, and the highest quality standards, fully enhancing that variety of land, flavors, and traditions that only Italy can offer.

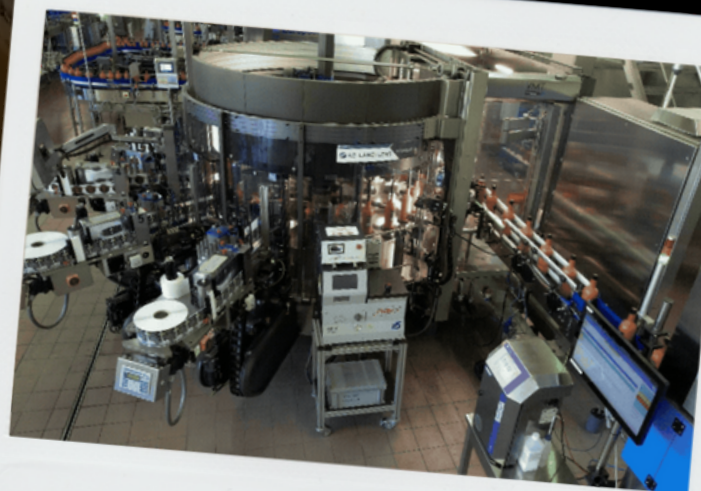

Today, Schenk Italia is a recognized point of reference both in the Bel Paese and abroad, bringing together four estates located from Trentino Alto Adige to Puglia: Cantine di Ora (TN), Bacio della Luna (TV), Lunadoro (SI), and Masso Antico (BR).

The group produces still, semi-sparkling, and sparkling wines that receive international awards every year, winning the hearts of experts and delighting the palates of critics and connoisseurs

The passion for quality and a focus on innovation brought Schenk Italia and P.E. Labellers together, giving life to a success story that is told every day.

Today, the Schenk group has 3 P.E. machines, 2 installed at Cantine di Ora and one at Bacio della Luna, used to impeccably label over 50 million bottles per year.

The iconic bottles of such highly appreciated wines require superior labeling, capable of ensuring a standard of excellence consistent with the product. This is achieved through extremely reliable solutions where maintenance needs are kept to a minimum.
