

- Roll-fed wrap-around labels
- Shrink wrap-around labels with linerless pre-glued technology

## **SIMPL-CUT®**

Completely innovative labelling solution, with cutting and gluing system that reverses the traditional principles of Roll-fed machines

## Revolutionary Solution: two technologies, one labeler

- Hot melt & linerless pre-glued technologies on one labeler: unmatched flexibility | maximum freedom of choice
- Change over from one technology to the other in < 1 minute

HOT MELT

LINERLESS PRE-GLUED

## SAVING CALCULATOR

Hot Melt  
technology

Linerless Pre-Glued  
technology

- 1 Energy savings
- 2 Higher efficiency
- 3 Higher safety
- 4 Huge maintenance reduction
- 5 Superior aesthetic result
- 6 Proven technology
- 7 Wraparound shrinkable applications

# What's New?

Simpl-Cut® is the cutting-edge next generation of roll-fed labelling technology. It introduces an innovative cut and glue system that revolutionizes the traditional operating principle.

Thanks to its Key Innovation Simpl-Cut allows to obtain **up to 6% productivity increase/year** tested and proved by the Clients are using the machine.

**Let's discover why it's different and what kind of benefits it brings to you!**

## SAVING CALCULATOR

---

Roll-fed

**Simpl-Cut**

- 1 Only one drum for three operations**
- 2 Hot melt applied before cutting**
- 3 Innovative cutting system**
- 4 Up to 6 divisions on the same drum**
- 5 Low tension web management**
- 6 Standard ergonomic layout**

# Unmatchable flexibility

Simpl-Cut® technology is both a stand-alone machine and an independent station installed on cart to be combined with a Modular SL machine

Production speed: up to 82,000 BpH

Machine Ø: 768 - 960 - 1120 - 1420

Plates: 14 to 45

Technology: hot melt and pre-glued

Label material: OPP - PET

Stations: modular fixed or on cart

Containers: cylindrical and/or shaped

Plate rotation drive: servo driven belt, servo motors

## APPLICATIONS

- Roll-fed wrap-around labels
- Shrink wrap-around labels with linerless pre-glue technology

## MARKETS SERVED

Beverage, Food & Dairy, Pet Food Personal & Home Care, Chemical

## International Awards

TECHNOLOGY EXCELLENCE  
AWARD 2021

Winner of the first prize as the  
MOST INNOVATIVE SOLUTION  
in General Packaging

INNOVATION  
AWARD 2022

Winner as  
SUSTAINABLE SOLUTION  
in Packaging Category

Djazagré 2022 Algiers - Algeria

## **Simpli-Cut® offers unmatched flexibility and the possibility of wraparound shrinkable applications**

The sectors that can benefit by using pre-glued technology constantly increase: removal of labels on returnable bottles through the bottle washing process represents an ever-expanding market.
